Hello all, Here's my first ever addon for World of Warcraft, and I hope you like it. As many of you who have played WoW before this, you might have heard of mods like "GCD Hacks" or "Other CD Hacks" being used, however, these are the same as our WoWMy GCD, which will reduce ALL your spells' cooldowns by 0.4 seconds (including cooldowns of spells you've already cast). ----- My code is not perfect, and I will always be glad to hear constructive criticism. Enjoy! the API's used: ----- GCD - global cooldown

===== Equestrian Oddities's EQ API's
(thank you guys @PvP..) ----- If you like our addon, please tell your friends who you think might benefit from this. The one thing we lack is f678ea9f9e
